

EXPERIENCE

UX Design Certificate

Google Career Certificates Feb 2022 - Jun 2022

I have completed 7 courses developed by Google, these courses include: empathizing with users, defining their pain points, ideating for design solutions, creating wireframes and prototypes, and testing designs to get feedback.

EDUCATION

BSc. Electrical & Electronics Engineering

IGEE (Ex: Inelec) Sep 2020 - June 2023

Electrical & Electronics Engineering has taught me to always search for improved solutions and optimize processes, much like UX designers strive for better user experiences."

MSc. Power Engineering

IGEE (Ex: Inelec) Sep 2023 - Currently

I'm currently enrolled in an MSc program focused on Power Engineering, diving deeper into electrical systems and energy management, as I strive for precision and excellence in engineering solutions.

HONORABLE MENTIONS

- Designed 10+ diverse project apps and websites to practice my craft.
- Prepared and mentored 5 UX designers, providing guidance and support in their career development.
- Conducted a 4-session workshop, assisting over 30 designers in building their first apps.
- Created a 4-hour design challenge to assess skills of all the participants.

ACHIEVEMENTS & IMPACT

UX Designer & Web Developer

ISC Website June 2022 - August 2022

As the sole designer and developer, I was instrumental in creating an engaging and functional website for a scientific club. From initial design to final implementation, I oversaw all aspects of the project, ensuring a smooth user experience and a visually appealing interface.

UX Design Workshop Manager

Inelectronics Students Club Dec 2022 - Feb 2023

After completing the program, I started practicing and improving my design solutions every day. I was passionate about UX design and wanted to share my new knowledge with others. That's when I decided to deliver a UX design workshop. Provided a comprehensive UX design workshop to over 40 attendees, teaching the fundamentals of research, wireframing, prototyping, color theory, typography and design styles. The resulting projects have demonstrated good understanding of topics, inspiring deeper exploration of UX design.

HARD SKILLS

User Research, Experience Strategy, Information Architecture, Interaction Design, User Interface Design, Usability Testing, Graphic Design, Content Writing, Persona Construction, Interviewing, Surveys, Rapid Prototyping, Competitive Analysis, Journey Mapping, Wireframing, Storyboarding, Heuristic Evaluation, HTML, CSS

SOFT SKILLS

- I'm a big-picture systems thinker with an obsession for details.
- I'm outcomes-driven, delivery-focused & adaptable to any task.
- I'm empathetic and push for honest, inclusive & meaningful designs.
- I'm strong at communicating design intent—verbally and visually.
- I embrace humility & bias for collaborating with my team for better outcomes.
